

NOW ONLINE MASTER'S IN NURSING EDUCATION

Mount Carmel
College of Nursing
Graduate Studies

The NEW Online Master of Science Program in Nursing Education

Realize **YOU** at the Next Level

There's never been a better or more convenient time to advance your career in nursing education. Our NEW Online Nursing Education track can prepare you, the professional nurse, to enter the academic classroom as faculty---educating the next generation of nurses or to take on staff development responsibilities in a healthcare setting.

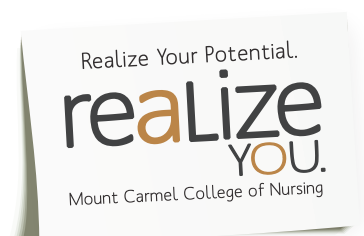

With our vast experience in educating nursing for more than 110 years, Mount Carmel has the solid foundation necessary to help you realize your full potential.

- Mount Carmel offers high academic standards ensuring a challenging environment
- Outstanding faculty, including doctorate-level prepared faculty members, are focused on your success
- Online classes are easy to fit into a busy schedule
- There's no Graduate Record Exam (GRE) required

About the Program

Upon completion of the Nursing Education track, coursework will provide graduates with the knowledge and skills to:

- Assume advanced nursing roles in education
- Develop appropriate programs that respond to the educational and healthcare needs of diverse populations
- Use epidemiological, social, and environmental data to draw inferences for the development of nursing education programs
- Design health promotion and disease prevention educational programs
- Evaluate nursing education program(s) and policies to assure quality outcomes
- Demonstrate leadership in nursing education
- Use ethical decision making in relevant practice roles
- Collaborate with other disciplines to achieve quality outcomes in nursing education
- Facilitate the use of evidence-based practice in nursing curricula
- Promote nursing as a profession and a discipline
- Demonstrate scholarly inquiry through verbal and written communication in educational scholarship

Mount Carmel College of Nursing Graduate Studies

The NEW Online Master of Science Program in Nursing Education

- **How long is the program?** Students may graduate in as little as seven semesters or have up to five years to graduate.
- **Do I have to travel to the Columbus campus in Columbus, Ohio?** Students must travel to the Columbus campus approximately one scheduled weekend to meet the requirements of Nursing 522: Advanced Health Assessment
- **Will I have opportunity for national certification?** Students graduating from the Nursing Education track will have met the academic criteria of the eligibility requirements for the National League of Nursing's Certified Nurse Educator™ examination.

Please note there are three criteria that must be met to sit for this exam:

- Licensure
 - Education
 - Experience
- **Is there a thesis or final project?** There needs to be satisfactory completion of a scholarly manuscript or graduate research assistant program.
 - Our **faculty are committed** to providing you with the best academic opportunities to achieve your goals.
